

# John Doe

A large grid of 90 rows and 30 columns of checkboxes, used for recording answers to the question: "What have you done over the last week that you will remember on your death bed?"

Rows are numbered 5 through 90 on the left side. The grid consists of 30 columns of checkboxes. The top 40 rows (rows 5-44) are filled with solid black squares, indicating that the corresponding checkboxes are checked. The bottom 50 rows (rows 45-90) contain empty checkboxes, indicating that the corresponding checkboxes are not checked.

What have you done over the last week that you will remember on your death bed?
